- Shop online or call

- Free technical support
- Same day dispatch

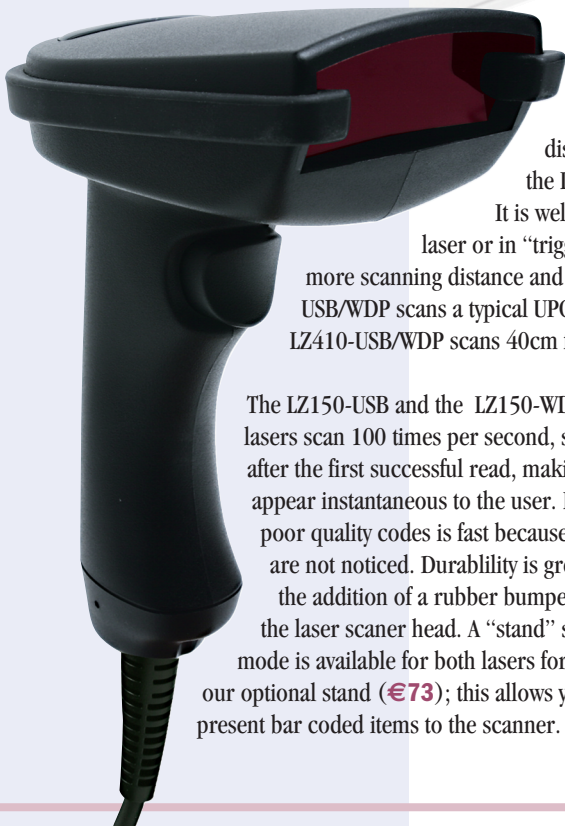

- 30 day money-back guarantee
- Quality products, quality service Since 1985!

The LZ150-USB and LZ150-WDP are integrated laser keyboard wedge or Keyboard USB readers with the WDP decoder built-in to the handle of the laser scanner. Scanned bar code data appears on your computer as if the data had been keyed in - there are no software changes required. All software that accepts keyboard data will accept bar code data too.

The LZ150 Laser Scanner is our newest entry level laser scanner. Combined with our decoding firmware, you won't find a better reading laser for the price. The LZ150 Laser Scanner features a high speed laser scan engine and is built to withstand multiple 5ft drops to concrete. The LZ150 features distance scanning up to 8" inches away on a medium density bar code and it reads any type of printed media. The

warranty on the LZ150 Integrated Laser Readers is 2 years.

The LZ150-USB/WDP Laser Scanner is a lower-powered laser with less scanning distance than the more expensive LZ310 or the LZ410 series of Worth Data Laser Scanners.

It is well suited for retail use, as either a hand held laser or in "triggerless" mode in our optional stand. For more scanning distance and better high density reading the LZ310-USB/WDP scans a typical UPC code from up to 28cm away and the LZ410-USB/WDP scans 40cm from a typical UPC Code.

The LZ150-USB and the LZ150-WDP lasers scan 100 times per second, shutting off after the first successful read, making reading appear instantaneous to the user. Reading even poor quality codes is fast because a few misreads are not noticed. Durability is greatly increased by the addition of a rubber bumper around the laser scanner head. A "stand" scanning mode is available for both lasers for use with our optional stand (€73); this allows you to present bar coded items to the scanner.

LZ150-USB / LZ150-WDP

Model No.	Description	Price
LZ150-USB	Int. Laser with USB Cable	€ 242
LZ150-WDP	Int. Laser w/Keyboard Y-Cable	€ 242
Replacement Cables		
C41	6 pin Keyboard Y-Cable	€ 26
C40	USB Cable	€ 26
Accessories		
S21	Gooseneck Stand With Base	€ 73
S11	Gooseneck Stand - no Base	€ 47

Price includes:

- LZ150-USB Integrated Laser with C40 USB Cable

Price includes:

- LZ150-WDP Integrated Laser with C41 Keyboard Y-Cable (6 Pin MiniDin)

LZ150-USB

- LZ150-USB Attaches as second keyboard directly to USB port (PC or Mac)
- Scan from 5cm to 20cm away on medium density bar codes
- Reads high density codes down to .13mm narrow bar width
- Entry Level Laser Scanner Well suited for Point-Of-Sale and other retail applications
- Scan Engine has no moving parts
- 100 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- 2 Year Warranty

LZ150-WDP

- LZ150-WDP attaches as second keyboard (PC only) using a 6 Pin MiniDin Y-Cable
- Scan from 5cm to 20cm away on medium density bar codes
- Reads high density codes down to .13mm narrow bar width
- Entry level Laser Scanner - Well suited for Point-Of-Sale and other retail applications
- Scan Engine has no moving parts
- 100 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- 2 Year Warranty

Components International

"I wanted to let you know how happy we are with your reader. My system is operating flawlessly and bar coding is saving us time and money and reducing errors."

It's really a pleasure working with a company that cares about the success of their product and the satisfaction of their customers."
