

## LZ Integrated Laser Readers

The LZ410-WDP and LZ310-WDP are integrated laser keyboard wedge / USB readers with the WDP decoder built-in to the handle of the laser scanner. Scanned bar code data appears on your computer as if the data had been keyed in - there are no software changes required. All software that accepts keyboard data will accept bar code data too.

The LZ410-WDP Laser Scanner is an industrial-quality laser reader. Combined with our decoding firmware, you won't find a better reading laser. The LZ410-WDP Laser Scanner features the Symbol 1200 Scan Engine and is built to withstand multiple 3 metre drops to concrete. The LZ410-WDP features

distance scanning up to 43 cm away on a medium density bar code and it reads any type of printed media. The warranty on the LZ410-WDP is 3 years.

The LZ310-WDP Laser Scanner is a lower-powered laser with less scanning distance than the LZ410-WDP. The LZ310-WDP is well suited for retail use, as either a hand held laser or in "triggerless" mode in our optional stand. The LZ310-WDP scans a typical EAN code from up to 28 cm away. The LZ310-WDP uses the Symbol 1200WA Scan Engine and the warranty is 2 years.

Both the LZ410-WDP and the LZ310-WDP lasers scan 36 times per second, shutting off after the first successful read. Reading appears instantaneous to the user. Reading even poor quality codes is fast because a few misreads are not noticed. Durability on both models is greatly increased by the addition of rubber bumpers around the laser scan window. A "stand" scanning mode is available for both lasers for use with our optional stand (£50); this allows you to present bar coded items to the scanner.

### LZ410-WDP

- LZ410-WDP attaches as second keyboard (PC only) or directly to USB port (PC or Mac)
- Scan from 0 to 43cm away on medium density bar codes
- Reads high density codes down to .13mm narrow bar width
- Well suited for distance scanning
- Uses Symbol 1200 Scan Engine with lifetime warranty on scan element
- 36 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- Protective rubber bumpers, 3 year warranty

### LZ310-WDP

- LZ310-WDP attaches as second keyboard (PC only) or directly to USB port (PC or Mac)
- Scan from 0 to 28cm away on medium density bar codes
- Lower-powered laser than LZ410-WDP
- Well suited for Point-Of-Sale and other retail applications
- Uses Symbol 1200WA Scan Engine with lifetime warranty on scan element
- 36 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- Protective rubber bumpers, 2 year warranty

### LZ410-WDP / LZ310-WDP

Model No.	Description	Price
LZ410-WDP	Int. Laser Kbd Decoder	£377
LZ310-WDP	Int. Laser Kbd Decoder	£270
Cable Selection		
C41	5-6 pin convertible "Y" Cable	£ 18
C40	USB Cable	£ 18
Accessories		
S21	Gooseneck Stand With Base	£ 50
S11	Gooseneck Stand - no Base	£ 32

**£288**

Price includes:

- LZ310-WDP Integrated Laser
- Cable (Kybd or USB) (C41 or C40)

**£395**

Price includes:

- LZ410-WDP Integrated Laser
- Cable (Kybd or USB) (C41 or C40)

#### Brian Rogers

"It is so unusual to find a company with staff who are pleasant to work with and know their products so well. I have purchased barcode readers before but it has always been made out to be some kind of "black art" where only the supplier can configure the gun, yet not only do you make it simple, you even place your set-up codes on the web. I am really impressed"
