USB Bar Code Slot Reader

Our new SLV-WDP combines our popular WDP USB decoder and our F59M slot scanner into one compact and easy to use unit. This reader features a built-in USB port for true plug-and-play compatibility on PC or Mac. With the decoder built in, badge and card scanning has never been easier!

All software which accepts keyed input will accept bar code reader input without change; no additional software is needed to read bar codes into your applications. The computer and software see bar code data as coming from a fast keyboard operator.

This unit features our outstanding reading algorithms for quick decoding. Complete with USB cable, the price is only **€260**. This unit is also available as the SLI-WDP for infrared reading. Warranty is 2 years.
